4%. --- This is our understanding of the universe.

The other part of the universe consists of "dark matter (暗黒物質)" and "dark energy (暗黒エネルギー)" whose natures are not yet known. The dark matter played an important role to form the galaxy (銀河), stars and ourselves.

Let's talk about the dark side of the universe over nice coffee and snacks.

**Learn about science and
practice English!**

After the presentation, we will have a discussion
over café drinks, sandwiches and sweets.

Native speakers will be there to help!

**Register by Tuesday,
May 31st.**

To register e-mail your name to The
'Kobe University Science Shop at:

**Space is limited to
the first 30 people**
